PUT YOUR GENEALOGY ON THE WEB

That's It

Thank you all for coming.

Any Questions?

Just Kidding!

# LET'S GET SERIOUS!

## Four Things to Cover Today:

- Reunion - Generate content
- Send to iDisk
- iWeb - Web Pages
- Free web sites

# REUNION

First we're going to create two sets of Web Family Cards

- Create a folder to simulate your web site on your computer's desktop

# REUNION

Then, create the first set of Web Family Cards - Of Barack Relatives, saving them to the just-created folder on your desktop.

- Go to Home Person (Barack Obama)
- Select who will be on the cards by using *Change, Mark Groups, Relatives*
- Click Create Web Family Cards
- Click on "Web family cards and person sheets"
- Click Sources, Pictures, Web media page
- Type in a Title ("Obama Family Line")

# REUNION

1st set of Web Family Cards, Cont.

- Click on Web Preferences, and customize:
  - Contact Info - List yours
  - Cover Page - Put your name as Author, then click on Graphic and find a graphic about 640x480 pixels
  - Files - for Case, select lower case, for Extension select .html, for Cover page select index.html
- For the rest of the selections, use the defaults and include all the different pages offered

# REUNION

Then create a 2nd set of Web Family Cards - For Barack's immediate Family:

- Go to Home Person
- Select who will be on the cards by using *Change, Mark Groups, Descendants*
- Modify Settings of Web Family Cards, name them wfc-famgroup
- Generate the Web Family Cards & view them

# REUNION

Now we're going to create two charts in Reunion

- Create a Decendant Chart by starting from Barack's grandfather Hussein Onyango Obama, with pictures. Save as a graphics file (Click FILE | SAVE GRAPHICS FILE) and save the file (descendants.jpg) to the folder you just set up at iDisk, Web/Sites/reunion/”

- Create an Ancestor Chart starting from Malia Obama, the same way as above and save the file (ancestors.jpg) to iDisk, Web/Sites/reunion. ancestors.jpg

# IDISK

- View Folder Structure in iDisk and create a folder in iDisk under the Web/Site/ folder called “reunion”
- Copy the files just generated to iDisk
